## TITAN 80HD SST/DST

## 80mil HDPE TEXTURED GEOMEMBRANE

Titan HD is a co-extruded textured high-density polyethylene (HDPE) geomembrane available on one or both sides. It is manufactured with the highest quality resin specifically formulated for flexible geomembranes. This product is used in applications that require increased frictional resistance, excellent chemical resistance and endurance properties. This product specification meets GRI-GM13. Single Sided (SST) and Double Sided (DST).

| TESTED PROPERTY   | TEST METHOD  | FREQUENCY              | UNIT<br>ENGLISH<br>(METRIC)                        | VALUE<br>ENGLISH (METRIC)         |
|---|--|------------------------|--|-----------------------------------|

## Notes:

- (1) Dispersion only applies to near spherical agglomerates. 9 of 10 views shall be category 1 or 2. No more 1 view from category 3.
- (2) NCTL for HDPE Textured is conducted on representative smooth geomembrane samples.
- (3) Roll Lengths and widths have a tolerance of ±1%.
- o HDPE Smooth is available in rolls weighing approximately 4,000 lb (1,800 kg).
- All geomembranes have dimensional stability of ±2% when tested according to ASTM D 1204 and LTB of <-77°C when tested according to ASTM D 746.
